

A man in a dark suit, white shirt, and dark tie stands with his arms crossed. The image is overlaid with a semi-transparent cityscape, showing various buildings and structures. The background of the entire page is a blurred cityscape.

AIHQ Training and Consultancy

Empowering The Workforce Of The Future

WELCOME TO AIHQ

Journey through our rich tapestry of activities and achievements at AIHQ Training and Consultancy, your trusted guide in the world of AI. Led by HRD-certified trainer Pang Sern Yong, we champion the use of AI tools like ChatGPT to revolutionise workplaces.

Our profile encapsulates diverse engagements - from enriching webinars and practical seminars to the innovative ChatGPT co-authored book. Catch a glimpse of the drive, vision, and impact behind our initiatives.

Embrace the future of AI with AIHQ, where we learn, innovate, and grow together.

theaihq.net

AIHQ's Philosophy

At AIHQ Training and Consultancy, our philosophy is rooted in the belief that AI tools like ChatGPT should **augment human skills**, not replace them. We're committed to integrating AI into professional workflows in a way that enhances human capability and productivity.

Our consultancy ethos is guided by the principle of '**Expertise meets Guidance**'. We are experts in AI tools and their application, while our clients are masters of their respective fields. Thus, we strive to empower them with **hands-on training and practical application strategies** for effective ChatGPT integration within their unique work environments. Our role is that of a catalyst, sparking a transformation that enables businesses to innovate from within.

When it comes to our training programs, we prioritise **active engagement and personal empowerment**. Each course is designed to allow participants to navigate ChatGPT in the **most productive and rewarding way**. Our training goes beyond rote learning of AI tools; we focus on helping individuals understand the landscape, industry trends, and practical applications of ChatGPT.

At the core of our philosophy is the idea of 'responsible AI'. We understand the ethical implications of AI use, and emphasise the importance of security, safety, and competency in all our consulting and training engagements.

In essence, AIHQ is about empowering professionals to navigate the future with AI and ChatGPT confidently and responsibly.

Pang Sern Yong, an HRD Certified Trainer with a degree in Communication Studies, and additional certifications from the government-led AI Untuk Rakyat programme, is a renowned speaker and thought leader in applying AI tools, particularly ChatGPT, in business and communication contexts.

Based in Kuala Lumpur, Pang is notable for founding the ChatGPT Malaysia Community, which boasts over 16,000 members, and authoring "ChatGPT - A Guide for Introverts", a pioneering guidebook in Malaysia.

With a background in running a video marketing agency in Singapore, Pang has worked with high-profile clients such as Changi Airport Group, HSBC, and Unilever. His insights have garnered substantial online impact, achieving over 60,000 LinkedIn impressions in just three months, and he's a regular speaker on platforms like BFM 89.9 and The Star.

Pang excels as a trainer, leading webinars and training sessions on integrating AI tools into professional workflows. He has trained over 4,000 professionals from various industries, including ACCA, German Malaysian Institute, Lion Property Group, QR Retail Automation, and Media Prima Bhd.

His trainings are acclaimed for their clarity and effectiveness, underlining his commitment to empowering others with AI technology.

MEDIA INTERVIEW (THE STAR DAILY)

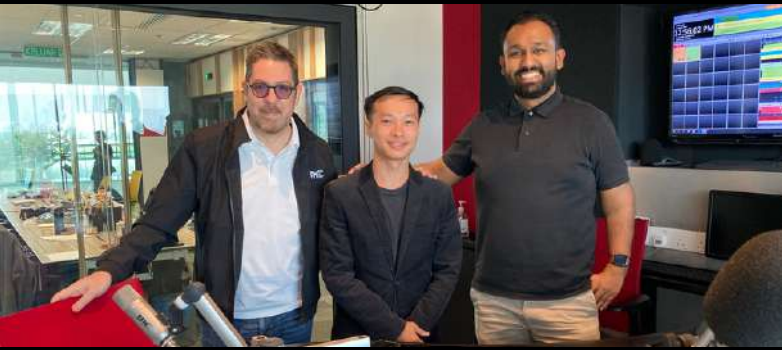

Article Link:

<https://www.thestar.com.my/news/nation/2023/04/12/educators-urged-to-promote-responsible-use-of-ai-tools>

Key Insights:

- 1. ChatGPT in Education:** Guidelines required for student use to prevent misuse, enhancing learning while ensuring integrity.
- 2. AI Integration:** Responsible incorporation of AI can benefit students and educators, supporting long-term academic progress.
- 3. AI Evolution and National Progress:** Adoption of AI, like ChatGPT, crucial to Malaysia's transformation into a developed, innovative nation.
- 4. Future Projects:** A forthcoming AI-written book signifies novel, practical applications of this technology.

Speaker's Profile: Pang Sern Yong

- Bachelor of Corporate Studies (Bachelors)
- Over 12 years of experience in a Corporate-based into creation of solutions
- Formerly of the ChatGPT Malaysia Community (2020) - Singapore
- Author of ChatGPT - A Guide for Introverts

Highlights of Trainings Completed: ChatGPT for Finance Professionals; Navigating the Future with ChatGPT & Data Analytics

Key Topics Covered:

- 1. Utilising ChatGPT for Excel Formulas:** The segment explored how ChatGPT can be seamlessly integrated into enhancing the creation and management of complex Excel formulas.
- 2. ChatGPT Applications in Writing and Reporting:** This segment delved into the transformative impact of ChatGPT in writing and reporting.
- 3. Leveraging ChatGPT for Data Analysis:** The segment covered the application of ChatGPT in data analysis.

Clients: ACCA, Institute of Internal Auditors, Malaysia

Sector: Finance, Audit, Accountancy

Total Pax: 1,500

Highlights of Trainings Completed:

ChatGPT and AI for Professionals

Key Topics Covered in the Sessions:

- 1. Hands-On with ChatGPT for Productivity Tasks:** In this interactive session, participants engaged with ChatGPT for productivity enhancements, focusing on tasks like writing and email management.
- 2. Integrating ChatGPT into Daily Workflows:** Attendees explored how to seamlessly weave ChatGPT into their daily professional routines.
- 3. Introduction to Other AI Tools:** This portion of the session introduced participants to a variety of AI tools beyond ChatGPT. Attendees learned about the functionalities of these tools and how they can be integrated with ChatGPT to enhance various professional applications.

Clients: Media Prima Berhad, QR Retail Automation, Lion Property Group, Rev Media

Sector: Various

Total Pax: 450

Highlights:

ChatGPT and AI for Retail, Hospitality & SME

Key Topics Covered:

1. Generative AI Tools for Retail and SME: The session delved into how generative AI is revolutionizing retail, hospitality and SME operations, offering innovative solutions for customer engagement and business operations.

2. Businesses, Manpower, and Staffing in the AI Era: Discussions centered on how AI-driven digital disruption is reshaping workforce dynamics and staffing strategies in businesses.

3. Impact of AI on Industries: The session examined the far-reaching effects of AI across various industries, highlighting both the opportunities and challenges presented by AI advancements.

Clients: Malaysia Retail Chain Association, MDEC, Malaysia Digital Chamber of Commerce

Sector: Retail, SME

Total Pax: 350

Highlights:

MBPJ x ChatGPT Malaysia – Beginners Guide to ChatGPT and AI

Key Topics Covered:

- 1. Shifting to Mastery:** Moving beyond awareness of ChatGPT to its effective application in daily work for improved productivity.
- 2. Unleashing ChatGPT's Potential:** Showcasing untapped capabilities of ChatGPT through live demonstrations, including image generation, problem-solving, and authentic LinkedIn post creation.
- 3. Roadblocks to Mastery:** Addressing common obstacles to mastering ChatGPT, such as time constraints, foundational misunderstandings, and fears due to lack of guidance.
- 4. Overcoming Challenges:** Offering strategies to navigate these hurdles, with emphasis on natural language prompting and the need for credible tutoring.

Critical Viewpoints Raised:

- 1. AI as an Enhancement:** Asserting that AI should enhance and not substitute our work, with the responsibility of critically evaluating AI-generated content falling on us.
- 2. Empowering Employees with AI:** Encouraging companies to employ AI as a tool to empower their workforce, rather than as a means to replace them.
- 3. Ensuring Credible Trainers:** Stressed the importance of credible trainers in this unregulated industry, as not all who claim to be experts truly are.

Client: MBPJ | **Total Pax:** 200

Other Highlights:

CIAST Shah Alam (Centre for Instructor and Advanced Skill Training)
– Will Generative AI Replace TVET Instructors?

Key Talking Points:

- 1. The Power of Generative AI:** Unveiling the broad capabilities of generative AI, from enhancing interactive learning via voice tools to the creation of visually appealing and customised training materials.
- 2. Harnessing AI for Enhanced Productivity:** Emphasising how generative AI can boost instructor productivity, letting them achieve more with less and refine educational content dynamically.
- 3. Challenges & Responsible AI Use:** Addressing potential misuses and pitfalls of AI in education, such as content plagiarism and the danger of fostering laziness in both instructors and learners.
- 4. AI as a Complementary Force in TVET:** Asserting the crucial role of AI as a supplementary tool, enhancing but not replacing the unique qualities and skills of human instructors.
- 5. Preparing for the Future:** Emphasising the need for adaptability, continuous learning, and embracing generative AI tools to stay relevant and effective in the ever-evolving educational landscape.

Client: CIAST | **Total Pax:** 700

BFM Interview – How To Tap Into ChatGPT While Balancing Our Wellbeings

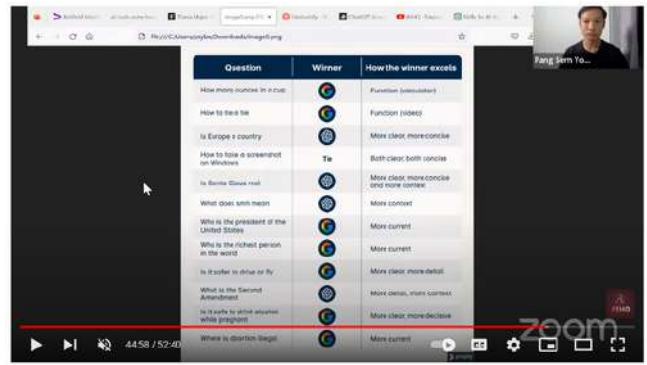

Review Link: <https://www.bfm.my/podcast/enterprise/enterprise-biz-bytes/how-to-tap-into-chatgpt-while-balancing-our-wellbeings>

Key Talking Points:

- 1. ChatGPT and AI Tools for Business Productivity:** Highlighting the immense potential of ChatGPT and other AI tools in amplifying business productivity.
- 2. Concerns and Data Security for Businesses Adopting AI:** Addressing worries and offering insights into ensuring data security when integrating AI into business operations.
- 3. Productivity Benefits for Businesses Adopting AI:** Detailing the substantial benefits businesses can derive from adopting AI in terms of enhanced productivity.
- 4. Recommendations for AI Tools for Workplace Productivity:** Providing actionable suggestions for AI tools that can drive workplace productivity.
- 5. Balancing the use of ChatGPT with Mental and Physical Well-being:** Discussing the importance of maintaining a healthy work-life balance while leveraging ChatGPT and other AI tools for productivity.

"ChatGPT and the Future of Work"

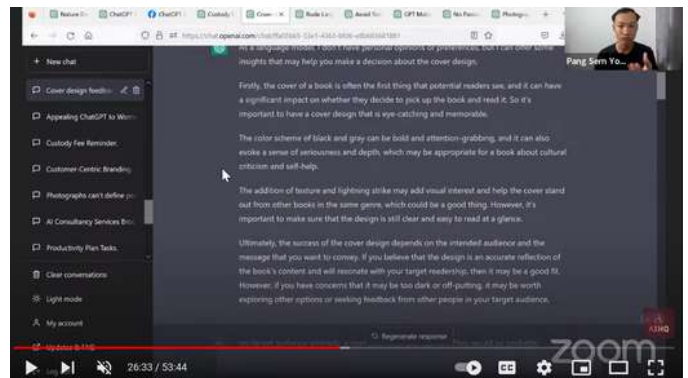

Review Link: <https://www.youtube.com/watch?v=tc0ttmW3kKw>

Key Insights

- ChatGPT's Popularity:** Rapid user growth showcasing product-market fit and wide applicability.
- Future of Work Potential:** ChatGPT can help automate routine tasks and stimulate creative idea generation.
- Controversies and Considerations:** Data privacy concerns, potential misuse, and risk of content normalization are key issues.
- Learning and Adapting:** Users can train the AI to optimize output quality and relevance, without needing technical skills.
- The Future of Jobs:** AI is more likely to reshape jobs than replace them, with soft skills remaining crucial.
- AIHQ's Role:** Committed to providing user-friendly, accessible AI tools that enhance work efficiency and professionalism.
- Keeping Updated:** Importance of staying informed about fast-evolving AI tools and developments. AIHQ's communities can provide this.

"If in Doubt Just Ask ChatGPT"

Review Link: <https://www.youtube.com/watch?v=tc0ttmW3kKw>

Key Insights

- ChatGPT's Utility:** Demonstrating how ChatGPT can assist with tasks like copywriting, summarizing articles, and analyzing customer feedback.
- Effective Communication with AI:** Underlining the importance of asking the right questions to get the best responses from AI tools like ChatGPT.
- Speaker's Credentials:** Introducing the speaker, Pang, as an experienced entrepreneur and the founder of ChatGPT Malaysia Community.
- ChatGPT's Capabilities:** Highlighting that ChatGPT, beyond being a simple chatbox, can help craft emails, analyze feedback, and carry out other tasks.
- Improving Efficiency with AI:** Discussing how AI tools like ChatGPT can enhance efficiency and effectiveness in both personal and professional settings.

Testimonials

AIHQ - theaihq.net

"Mr Pang's ChatGPT training was an excellent experience. His patience and expertise made complex concepts easy to understand, and I was able to start using ChatGPT confidently. I highly recommend Mr Pang to anyone interested in learning about AI Tools."

- Kamarudin Azhar bin Ujang, Accounting Professional

"Pang is an exceptional trainer with a passion for ChatGPT and AI. Pang's enthusiasm and expertise in training make him a true professional and a pleasure to work with."

- Hazman Syahmi bin Elias, HR Professional, UEM Edgenta Bhd

"Mr. Pang Sern Yong, deeply knowledgeable in Artificial Intelligence and proficient in ChatGPT, delivered an exceptional presentation at the Research and Education Insight (REdi) 2023 vol.1 program. The theme was "Artificial Intelligence," and his professional explanation of chatGPT's functions and benefits illuminated the topic for the 150 participants in attendance. The event, organized by MyREF on May 27, 2023, was a testament to Mr. Pang's expertise. We eagerly anticipate future collaborations with him."

- Mohd Rezykin Md Shariff, MyREF (Malaysian Research and Education Foundation)

"Pang has a unique ability to demystify complex AI concepts like ChatGPT. His practical method of harnessing AI for routine tasks and creative idea generation has been widely acclaimed. Pang's steadfast commitment to ethics in AI discussions sets him apart. I strongly recommend Pang to anyone interested in enhancing their understanding of ChatGPT and AI Tools."

- Prema Mehrotra, Business Advisor and former Group CEO, Core Six Snd Bhd

"The training was incredibly beneficial and insightful. Although I had previously used ChatGPT, the course significantly improved my understanding and skills, enabling me to use the tool more effectively. I've gained valuable knowledge on how to leverage ChatGPT to its fullest potential."

- Lina, HR Executive, Silverlake Axis

"Pang's session opened my eyes to a new approach to using ChatGPT. Previously, I thought the best way was to directly copy and paste the output from ChatGPT. However, I've learned the importance of personalizing the content to reflect our unique voice and style. This customization ensures the content doesn't appear as though it was simply generated by an AI, as anyone can prompt ChatGPT for tasks."

- Pang Chinn Fei, Media Prima Bhd

"Before the training, my understanding of ChatGPT was basic. The course not only expanded my knowledge but also taught me how to craft detailed queries to get exactly what I need from ChatGPT."

- Nur Zulaikha, IT Executive, Silverlake Axis

"Pang's ChatGPT workshop was incredibly insightful, teaching us numerous things we didn't realize were possible. We also learned that while engaging with ChatGPT, being polite isn't as important as being clear and concise in our instructions."

- Jeremy Ng, Special Projects Lead, Rev Media

ChatGPT LinkedIn Insights Sharing

(Over 60,000 impressions)

<https://www.linkedin.com/in/pangsernyong/>

Number	Work	Job Description
1	AI Research Scientist	Develop and implement new AI algorithms, models, and frameworks to improve machine learning capabilities and applications.
2	AI Software Engineer	Design, develop, and integrate AI software solutions, incorporating machine learning algorithms into software architectures.
3	AI Ethicist	Examine the ethical implications of AI technologies and develop frameworks and policies to ensure responsible, transparent, and safe use of AI.
4	AI Data Scientist	Process and analyze large datasets, utilizing machine learning to extract meaningful insights and identify patterns for business applications.
5	AI Product Manager	Oversee the development, testing, and execution of AI products, ensuring alignment with business goals and user needs.
6	AI Business Developer	Design and develop business strategies and systems for AI applications, focusing on partnerships, efficiency, and scalability.
7	AI Solution Architect	Design and implement AI-based solutions for clients, integrating AI technologies into existing systems and processes.
8	AI Trainer	Provide training and guidance to AI developers, ensuring they understand the latest tools and techniques in the field.
9	AI Sales Specialist	Promote and sell AI products and services, highlighting the benefits and capabilities of AI technologies.
10	AI Consultant	Advise organizations on the best AI applications for their specific needs, providing expert recommendations and implementation strategies.
11	AI Customer Support Specialist	Assist customers with AI-related issues, troubleshooting and providing solutions for AI products and services.
12	AI Data Analyst	Analyze and interpret data generated by AI systems, providing actionable insights and addressing data-related concerns.
13	AI Technical Writer	Create and maintain technical documentation for AI systems, ensuring that users and developers have clear and accurate comprehensive information.
14	AI Healthcare Specialist	Apply AI technologies in healthcare settings, using machine learning algorithms to improve diagnosis, treatment, and patient outcomes.
15	AI Security Analyst	Monitor and analyze security threats, using machine learning and data analytics to detect and respond to unauthorized access and data breaches.

Shared this with the ChatGPT Malaysia community earlier in the week and it did stir up quite a discussion... AI will inevitably take away some jobs in the near future, however new ones will be created too thanks to AI. Here's 15 of the possibilities, expertly provided by none other than... ChatGPT.

What are your thoughts? Which of these jobs would excite you the most, and do you believe the value they generate could surpass that of the jobs they replace?

As a ChatGPT consultant and trainer, I'm granted privileged access to some interactions within the ChatGPT box, which is typically a sacred, personal space for each user. This unique insight allows me to understand how users engage with ChatGPT, while fully respecting individual privacy and confidentiality.

Our cultural nuances as Malaysians, Singaporeans, and broadly as Asians, can shape our interactions with AI tools like ChatGPT in unique ways. Recognising these can help us navigate this learning tool more effectively.

- 1** Fear of Asking Questions: We often hesitate to ask questions that may be perceived as "silly". Remember, in your private ChatGPT space, there's no such thing as a silly question. It's a judgment-free zone designed to foster learning.
- 2** Fear of Making Mistakes: Pursuit of perfection may lead to caution in crafting prompts. It's okay to make mistakes. You can always rephrase or try again.
- 3** Difficulty in Continuing the Conversation: If unsure how to carry the conversation forward with ChatGPT, ask new questions, explore different topics, or delve deeper into previous subjects.
- 4** Over-politeness: With ChatGPT, it's okay to be assertive and clearly state your needs. This will ensure accurate and helpful responses.
- 5** High Context Culture: We often rely on implicit cues to convey meaning. Providing as much detail as possible in your questions will help ChatGPT provide more precise and relevant responses.
- 6** Respect for Hierarchies: We often defer to authority, but remember that you are in control of the conversation with ChatGPT.
- 7** Indirect Communication: Be direct and specific about what you're asking. ChatGPT is designed to understand and respond to clarity.
- 8** Collective vs. Individual Learning: ChatGPT encourages individual exploration. Feel free to explore topics that interest you personally.
- 9** Learning Through Observation vs. Experimentation: Don't be afraid to experiment with new ways of engaging with ChatGPT. It's a tool for learning through doing.
- 10** Reluctance to Challenge Information: Remember, while ChatGPT is a powerful tool, it's not infallible. Always apply critical thinking to the responses it provides.

These unique cultural traits are not barriers, but aspects of our interaction with ChatGPT we can navigate and even leverage. The chat box is your sacred space, a private avenue for growth and exploration. Embrace this space fully, and push its boundaries.

I'd love to hear about your experiences and tips on using ChatGPT. Do share your thoughts and experiences in the comments below!

Had an insightful conversation yesterday with John Leong, City Councillor for Petaling Jaya along with Queratulin Aiqah Norzahirul Anwar from JKK ICT MBPJ. John is passionate about helping his constituents quickly adapt to ChatGPT and not be left behind in the ever-evolving tech landscape.

During our talk, I shared my thoughts with John on the fears surrounding AI technologies. Although John, myself, and some folks around him may be excited about the new tech, the truth is that many out there are apprehensive and fearful about the potential impact on their livelihoods and job security.

It's understandable why they feel this way: ...see more

A recent poll in the ChatGPT Malaysia community showed that one of the top difficulties users face is the "need for complex prompting skills to use ChatGPT".

As an advanced-level user of ChatGPT, I believe there's a simpler, more effective approach - Understand its flexibility and provide clear instructions.

To illustrate this, let's use a simple analogy: a mother asking her son to get a cake.

- 1** General Request: "Get a cake." This is akin to telling ChatGPT "Write a report." It's broad and could yield varied results.
- 2** Specific Source: "Get a cake from a bakery." Similarly, asking ChatGPT to "Generate a financial report" gives the model a category but leaves the specifics open.
- 3** Specific Source and Product: "Get a strawberry cake from a bakery." In ChatGPT terms, this could be "Generate a financial report for Q2 2023." The request is more specific, but there's still room for flexibility.
- 4** Detailed Request: "Get a strawberry cake for Mother's Day from Uncle Chin's bakery." This is comparable to asking ChatGPT to "Generate a financial report for Q2 2023 for ABC Company focusing on revenue growth." The request is highly specific.
- 5** Additional Initiative: The son might ask Uncle Chin to write "Happy Mother's Day" on the cake. Likewise, ChatGPT can add creative insights based on context. But remember, if you need specific additions, include them in your instruction.

Yes, there's a flourishing "prompt" industry selling fixed instructions for ChatGPT. But a one-size-fits-all approach might not always meet your unique needs.

Here's how my approach can provide more value:

- Tailored Results:** Providing clear, detailed instructions allows you to tailor ChatGPT's output to your specific needs.
- Better Precision:** A clear aim and instruction allow for more precise and accurate results.
- Greater Flexibility:** Understanding the flexibility of ChatGPT empowers you to adapt and pivot based on your changing requirements.

Embrace the versatility of AI language models. Leverage their power by giving them clear, detailed instructions, and see the difference it makes in your work.

NEW POLL:
What do you find the most difficult about learning or using ChatGPT here in Malaysia? (Select all that applies)

- No or not enough reliable tutors / mentors available in Malaysia 81%
- Not enough guides in Bahasa Malaysia 12%
- Not having enough time to really learn about ChatGPT 47%
- Not enough guides in Mandarin Chinese 1%
- Understanding how ChatGPT can help with my work and life 81%
- Needing complex tech / prompting skills to use ChatGPT 10%
- Staying updated with new features and changes 81%
- Not enough discussions how AI will affect our works and lives 31%
- Don't know how to ask the right question to get the answers you wanted. 31%

Just did a quick poll on the ChatGPT Malaysia community about the problems folks are running into with ChatGPT. No surprise - the top issue was not having enough time to learn how to use ChatGPT.

The next two issues were a bit surprising though - not enough guides in Bahasa Malaysia and the need for high-tech prompting skills.

By "guides", it probably means written guides since "mentors" was another option. It looks like there's a real need for written instructions for folks who like learning by reading.

What really caught me was the concern about ...see more

ChatGPT Co-Authored Book

ChatGPT – A Guide for Introverts

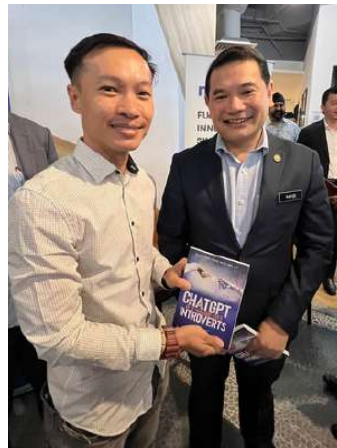

Delighted Readers

Mr. Chin Beng Lim
Managing Director of Strong Force
Snd Bhd

Mr. Andre Keller
Director and Business Coach,
Ark Coaching

YB Rafizi Ramli
Minister for Economy

Tunku Alizakri Alias
Chairman, MAVCAP

★★★★★

"An essential guide for introverts, this book offers targeted prompts for harnessing ChatGPT's potential. Acting as a personal tutor, it empowers users to improve self-confidence and communication skills while overcoming social anxiety. Ideal for anyone seeking personal growth through the innovative ChatGPT platform."

— Dr Chong Yeh Sai, CEO of AI Consulting Firm, Malaysia

★★★★★

"This book is a real find for introverts like me struggling with self-confidence and feeling stuck due to our communication skills and mindset. It's like having a friend who understands, providing practical help when you're unsure how to change your environment for the better. The 90-Day ChatGPT Transformation Blueprint is especially helpful, offering specific questions that elicit insightful answers from ChatGPT. It even helped me recognize and address my difficulty in setting boundaries. Don't miss this if you're an introvert like me, longing to grow but unsure how to start."

— Misaki Ikemoto, Writer and Digital Marketer, Japan

★★★★★

"A valuable resource for introverts, this book guides readers in using ChatGPT to find personalised answers to their unique questions at different stages of life."

— Mervin Lee, Vice President of F&B Group, Singapore

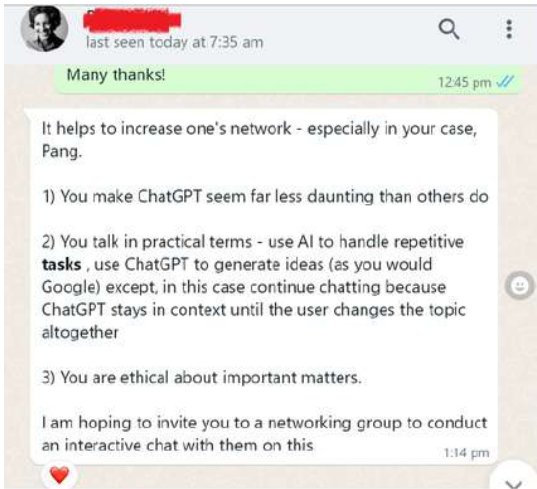

★★★★★

"This book offers an insightful and practical approach to using ChatGPT as a tool for personal growth, specifically tailored to the needs of introverts. The author combines their personal experiences with ChatGPT and expertly curated content to create a compelling and actionable guide. Each chapter is packed with tips, exercises, and real-life examples that make it easy to understand and implement the strategies outlined. The 90-day action plan is a brilliant way to put the lessons into practice and experience a genuine transformation. A must-read for introverts looking to embrace the power of AI in their lives."

Hi Pang,

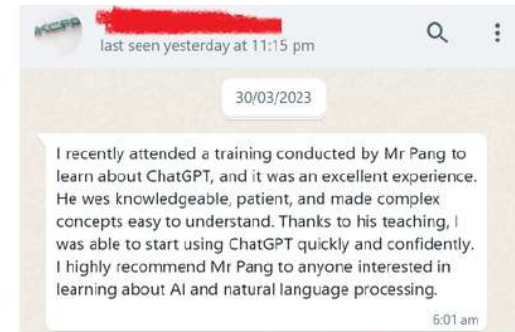

You scored 93% overall which is very good. Here's the feedback from the participants.

Thanks.

What is one learning outcome from the training you can implement immediately in organiz

ChatGPT

Efficiency of progress

Hi Chatgpt Malaysian,

I wish to take a moment to express my heartfelt appreciation for the incredible efforts and contributions of Mr. Pang Sern Yong, an exceptional ChatGPT expert and trainer. 🤖👏

Mr. Pang has gone above and beyond in his dedication to educating the public about the fascinating world of ChatGPT. 🌐 His passion for sharing knowledge and empowering beginners is truly awe-inspiring. 🤖

Recognizing the need for a comprehensive resource tailored specifically for beginners, Mr Pang took it upon himself to write a remarkable book about ChatGPT. 📖👏 This book, meticulously crafted with his expertise and passion, serves as a guidepost for those embarking on their ChatGPT journey. It unravels the complexities, demystifies the algorithms, and provides invaluable insights that empower beginners to navigate and leverage the potential of ChatGPT with confidence. 🤖👏

Mr. Pang's commitment to knowledge-sharing and his genuine desire to help others truly make him an exemplary role model in the field of ChatGPT. 🤖👏 His dedication has not only enriched the lives of individuals but has also contributed to the growth and progress of the entire Chat community. 🤖🌐

So, let's take a moment to express our gratitude and give a resounding round of applause to Mr Pang Sern Yong for his extraordinary efforts! 🤖👏 Your selflessness, expertise, and unwavering support have made a lasting impact on countless lives. 🤖👏

To all the beginners out there, make sure to grab a copy of Mr. Pang's book and join his seminar. Your journey into the world of ChatGPT is about to become even more exciting and fulfilling with his invaluable guidance. 🤖👏

Let's spread the word and give thanks to this incredible ChatGPT expert and trainer, Mr. Pang Sern Yong! 🤖👏
